Hi Davis!

It looks like next Friday at noon PST is their preferred time, with an hour of flexibility on either end. Let me know what you think.

Thanks!

Katherine

**Subject:** Fukushima informational communications

Hi Katherine,

Regarding concerns that radiation from the Fukushima disaster may impact Alaska marine resources, and agency plans to monitor the situation, NVE President Lee Stephan (and I) would like to talk with the EPA point person on Fukushima between 10:00 and 1:00 next Friday, February 28. 11:00 is suggested.

Thank you so much for coordinating this.
